- PHP
- Laravel, Symfony, PHP, REST APIs
- Secure Authentication & Authorization
- Database Design & Optimization
- React.js, Vue.js, Livewire
- Tailwind CSS, Bootstrap, Alpine.js

Profile

Senior Full-Stack Developer with 5+ years of experience designing and modernizing high-performance, scalable web platforms. Proven expertise in Laravel, Symfony, React, Vue.js, and API-driven architectures, with strong exposure to real-time data processing, analytics dashboards, and secure backend systems.

Experienced in transforming legacy systems into modern, scalable products with improved UI/UX, performance, and maintainability. Skilled in system architecture, cloud-ready deployments, and integrating AI-ready pipelines for personalized user experiences and advanced data insights.

Strong communicator and technical leader who collaborates closely with stakeholders to define product direction, ensure security, and deliver business-critical solutions in remote, fast-paced environments.

Education

Bachelor of Science in Computer Science **Feb 2017 - 2021**
University of Agriculture Faisalabad, Faisalabad
Undergraduate degree focused on programming, software development, and computer systems.

FSC (Pre-Engineering) **Jan 2015 - 2017**
Iqra Postgraduate College, Sadiqabad
Completed intermediate studies with focus on Physics, Chemistry, and Mathematics, preparing for engineering and technical fields.

Employment

Senior Full-Stack Developer **Jul 2023 - Present**
3Amigos, Lahore
Leading modernization of existing platforms into scalable, high-performance systems using Laravel, Symfony, React, Vue.js, and Livewire.
• Architected secure, API-driven backends supporting real-time data flows, analytics dashboards, and complex business logic.
• Designed and optimized system performance, reducing response times and improving application scalability under load.
• Collaborated with product and business stakeholders to shape technical direction, system architecture, and feature roadmap.
• Implemented best-practice security measures, access control, and data validation for production-grade systems.
• Played a key role in transforming legacy codebases into clean, maintainable, and extensible architectures.

PHP Laravel Developer **Sep 2022 - Jun 2023**
LEADconcept, Lahore, Pakistan
• Developed Laravel-based applications for eCommerce and Shopify integrations.
• Delivered end-to-end solutions including backend logic, APIs, and frontend components.
• Collaborated in small agile teams to deliver projects efficiently and on schedule.

- UI/UX Modernization
- Real-Time Data Handling
- Dashboard Development
- API-Driven Analytics
- Git, Linux (Ubuntu)
- Performance Optimization
- Deployment-Ready Architectures
- AI-Friendly Architecture Design
- Data-Driven Feature Implementation
- Personalization-Ready Systems

AdRightly, Faisalabad, Pakistan

- Experienced developing Laravel apps, local projects, Backend services and APIs which can be consumed cross platform easily.
- Developed web applications Using Core PHP & MVC Framework.
- Back-end development and maintenance of websites.

Leadership & Ownership

- Led technical decisions for complex features and system refactors.
- Mentored junior developers and enforced clean code practices.
- Actively participated in defining product architecture and long-term scalability strategies.
- Trusted contributor in remote, deadline-driven environments.

Achievements

- Core Expertise
- Full-Stack Architecture & System Design
- Real-Time Data & Analytics Dashboards
- Secure API Development & Integrations
- AI-Ready & Data-Driven Platform Design
- UI/UX Modernization (React, Vue, Tailwind)
- Scalable Backend Systems (Laravel, Symfony)
- Performance Optimization & Caching
- Cloud-Ready & DevOps-Aware Development
- Security Best Practices & Data Protection
- Delivered multiple full-stack applications on schedule.
- Led legacy system migration to modern framework.
- Created reusable components to speed up development.
- Fixed critical bugs promptly, reducing downtime.
- Led successful migration of legacy systems to modern Laravel-based architectures.
- Improved system performance and reliability through optimized queries and caching strategies.
- Delivered multiple full-stack platforms supporting real-time data and analytics.
